

Material Transfer to Debut New Product Lines, New Brand at Powder Show 2021

ALLEGAN, MI – Material Transfer announced today that attendees of the 2021 International Powder & Bulk Solids Conference & Exhibition, also known as “The Powder Show”, will be the first to experience its expanded PowerFill® Bulk Bag Filler line and the enhanced Material Master® Bulk Bag Conditioner. The new systems, which officially launched in late 2020, offer customers top-of-the-line quality at significantly lower costs.

“As the first major industry event since the pandemic, we are excited to showcase our new brand and to finally be able to demonstrate our new equipment and systems live and in-person,” said Scott Nyhof, president. “Our new PowerFill® Pro and PowerFill® Select Bulk Bag Fillers and enhanced Material Master® Bulk Bag Conditioner, which we began manufacturing last September meet our customers’ needs at significantly lower price points, while ensuring the top-of-the-line quality and integrity we’re known for.”

The company’s new brand and visual ID will also be on display at Booth #1339 during the August 24-26 show in Rosemont, IL. *The Inspiring a Better Way* brand is based on customer insights that credit the company for designing and customizing systems that transform their operations.

Don’t miss the opportunity to see Material Transfer in person.
